Furkan Sarı

Full-Stack Developer

👤 About Me

Passionate software developer with a strong focus on software engineering and cybersecurity, experienced in building end-to-end solutions across frontend, backend, database, and mobile platforms. Skilled in developing scalable and secure applications using modern technologies such as Flutter, Dart, and Node.js.

Dedicated to applying OWASP standards, secure coding practices, and data protection principles in every stage of development. Continuously improving in penetration testing and vulnerability assessment to ensure robust and reliable systems.

A collaborative and research-oriented developer, committed to creating secure, sustainable, and user-focused software solutions that deliver long-term value.

⚙ Skills

- Programming & Frameworks: Dart, Flutter, JavaScript, Python, Node.js, Express.js, HTML, CSS ,C#.

- Cybersecurity: OWASP Top 10, Secure Coding, Penetration Testing, Vulnerability Analysis, Authentication (JWT, OAuth 2.0), SSL/TLS

- Tools & Environments: Git, GitHub, VS Code, Android Studio, Postman, Figma, Linux, Docker (basic)

- Soft Skills: Problem Solving, Team Collaboration, Continuous Learning, Attention to Detail

🔠 Language

- English
- Türkçe

🎓 Education

(2020 –2022)
ONDOKUZ MAYIS UNIVERSITESI

Associate Degree in Computer Programming 3.65

(2022 –2025)
ONDOKUZ MAYIS UNIVERSITESI

Bachelor's Degree in Computer Engineering 3.34

💼 Experience

(2020 –2025)
FREELANCE SOFTWARE DEVELOPER
(Self-employed | During university studies)

- Developed and sold desktop stock management systems using C#.
- Built ASP.NET web applications integrated with desktop programs.
- Delivered custom software solutions improving client operations.

(2025 –)
JUNNIOR MOBILE DEVELOPER
Donbay Yazılım Sirketi

- Created cross-platform mobile apps (iOS & Android) using Flutter & Dart.
- Implemented API integration and JSON-based data management.
- Designed user-friendly interfaces and delivered scalable, high-performance apps for clients.
